FRIDAY, MAY 27, 1955

SINGLE COPY 10 CENTS

CP Down In Census; Rest Up

Canal Point was the only one of the Glades towns covered by the special 1955 federal census to show a drop in population for the 1950 census, the County Commission was informed this week.

Belle Glade continued the growth which makes it the largest town in the area, with a 1950 census figure of 8,616. Pa-hokee was second with 4,817, and South Bay was listed at 1,452.

The mid-decade census shows that Belle Glade grew by 1,397 persons in five years; Pa-hokee by 345, and South Bay by 402.

CP Down 83

Canal Point dropped from 1,022 in the 1950 census down to 939 in the recent count, a decrease of 83.

Belle Glade Camp was listed at 1,894 in a separate count. Chosen's population was 2,055 in 1955.

The communities of Boca Raton and Riviera Beach appear to be the fastest growing towns in Palm Beach County according to certification of the final federal census. Boca Raton with a population of 2,738 has tripled in size in the past five years, and Riviera Beach, according to the special census now available, has 2,268 residents, double its population in five years. Boca Raton and Palm Beach continues to be the largest city in the county with a population of 51,015 — up about 8,000 residents since the last census.

TWO SCHOOL GROUPS HERE

BELLE GLADE—Two groups of east coast school children, accompanied by their parents, made field trips to the Glades area in the past week.

The first was a group of 39 fourth grade students from Lake Worth elementary school, a d their teacher Miss Toth. Accompanied by some of their parents, they made the visits of the Belle Glade Chamber of Commerce. They spent the day with Dale Ellis, who took them to the cattle auction market, and showed them the local cattle raising, growing and harvesting operations.

They also enjoyed the Municipal Park where they ate their lunches. The field trip was a part of their study on "Life in Florida." They were given literature at the Chamber of Commerce office.

The second group came from Central elementary school in West Palm Beach. This was a group of 70 children and 13 adults from the sixth grade. Accompanied by Robert H. Cran-dall, social studies teacher and Ralph Powell, science teacher, they made the field trip to the cattle auction market, the packing house area, and also saw the facilities at the Everglades Experimental Station.

LIGHTER RUN AT CATTLE MKT.

BELLE GLADE—A lighter run but strong demand for stocker cattle was reported this week by Manager George C. Young of Glades Livestock Mart.

The week's sales totaled 1,209 cattle for a total of \$84,988.24.

The summaries follow:

Monday: 829 cattle, \$69,293.05; 1,350 calves, 135 steers, 133 cows, 121 heifers, 31 steers, 455 steers, 51 percent of no. and 51 percent of to slaughter.

SLAUGHTER—

Steers: Com 15.50-17.00. Uty 13.50-15.50. Calves 13.50-14.50. Uty 11.75-12.25. Cut 9.00-10.50. Calves: Good 18.00-20.00. Com 15.00-18.00. Uty 12.50-15.00. Cull 7.25-12.25. Cows: Com 14.00-14.50. Uty 11.50-13.00. Cut 9.50-11.00. Steers: 7.75-9.00. Bulls: Cut 10.25-12.50. Com 7.00-9.00.

STOCKER—

Steers: 8.75-16.75. Heifers: 6.75-13.25. Calves: 11.75. Cows: 8.00-14.00.

Wethers: 2.00. Cattle: \$15,695.

19.38 calves, 61 heads, 73 steers,

46 calves, 2 bulls, 5 yearlings,

43 percent of no. and 49 percent of to slaughter.

CAMERA REPORT: Season End Nears

PHOTOS BY J. F. MUGGS

CC DRIVE IN LAGGING STATE

PAHOKEE — Members to the Pa-hokee Chamber of Commerce for 1955-56 are coming in slowly, with only \$1,996 in thus far toward the goal of \$4,650, Chairman Lynn Hunter has announced.

So far, the Chamber sent statements to its members rather than making personal contact. However, returns have been so slow that C-C directors are now out hunting up the membership renewals.

Meantime, plans for the fourth annual fireworks celebration are getting under way with the C-C committee planning a program leading up to the after-dark fireworks display under the direction of Milton Carpenter.

Colonel E. E. Kirkpatrick, Jacksonville district engineer, awarded a contract last week to Fairbanks-Morse & Company to furnish the pumps and equipment for Pump Station 3.

The pump station will be located near the sawmill on Canal No. 3, where Miami Canal joins Lake Okeechobee. It will pump excess water from the agricultural area tributary to the northern 15 miles of Miami Canal; an area of 129 square miles can be drained sufficient to remove 3/4 inch of rainfall per day from that area.

Under the contract awarded, Fairbanks-Morse, three vertical pumps and three diesel engines with all necessary machinery will be furnished for the pump station. The three pumps will have a total capacity of 1,160,000 gallons per minute.

Pump Station 3 will be the sixth large pump station to be built under the federal flood control project for Central and South Florida. Pump Station 2 near Belle Glade is well underway.

Pa-hokee B'water Up For Permit

PAHOKEE — Tuesday is the day set for consideration by the City Commission for the permit to the City of Pa-hokee for construction of a grain and breakwater, and to dredge the affected area to five feet above mean sea level, the city was informed.

No public hearing will be held on the permit application, the Corps of Engineers at Jacksonville said. The permit issued by the Army is a waiver of objections concerning public rights of navigation, and has nothing to do with franchise or property rights, according to the Engineers.

The proposed concrete and steel sheet grain would be about 450 feet long, of which about 300 feet would extend into the waterway, and would be about 100 feet wide. The grain would be about 20.0 feet above mean sea level. The proposed breakwater would be of the same construction, elevation and width as the grain but would be about 1200 feet long lying parallel to the Government cut. The grain and 830 feet seaward of the shoreline. The southwesterly end of the breakwater would lie approximately 530 feet lakeward from the lakeward end of the grain.

Securing the aid of Fire Chief Mead Willits and Police Chief C. W. White they gained entrance to the plant. The gasoline had been ignited on the kitchen floor and ignited. Linoleum on the floor prevented the gasoline from soaking into the wood and the fact that the house was closed up tight prevented the fire from doing serious damage.

It is suspected that there may be some connection with this fire and the recent one at the Cleo Higginbotham home inasmuch as the evidences found in each case were similar.

5 Dogs Inoculated

SOUTH BAY — Inoculation of dogs for rabies last Saturday at City Hall brought five dogs between 10 and 11 a.m.

HISSED THE OFFICE MANAGER, who has weeks of work ahead to get the company books closed. "Don't try to make a monkey out of me—I'll be all right after I get my vacation." **OBSE**ERVER respects the confidences of these wornout spokesmen, and herewith presents these pictures as the official end-of-season photographs.

GRADUATION GETTING NEARER AS SENIORS GO INTO FINALE

Graduation day was coming closer and closer for Belle Glade and Pa-hokee high schools as the final round of honors and activities began this week.

BELLE GLADE

Graduation week activities of Belle Glade high school got under way Tuesday evening with the senior class supper which was given by mothers of the senior class students. Guests at the supper were the members of the graduating class, Principal Clyde Canipe and valedictorian of the 1955 graduating class, with the highest four-year average of the class.

Miss Judy Starling, daughter of Mr. and Mrs. John Nichols, will be salutatorian in recognition of her second highest scholastic average.

The annual Class Day observance of the high school will be observed on next Friday's assembly at 2:30 p.m.

If a daily pay arrangement can be made so that workdays knocked out by inclement weather will not be charged against the city, Council decided to accept the offer of Sam Nichols, who will paint the new sidewalks for \$100 a week including his supervisory services, truck, and tools.

Mayor Lewis Friend was in

**Expert Finishes
Research At Sta.**

BELLE GLADE—Miss Alice Roberts, USDA plant pathologist, has returned to Beltsville, Md., after having spent two weeks at Everglades Experiment Station studying the field crop of the agronomy section and testing the diseases and hybrids as to their resistance to leaf diseases, especially to Northern leaf blight.

Plots containing the USDA lines at the Everglades Experiment Station are a part of those grown each year in national corn research effort between the United States Department of Agriculture and the state experiment stations. The plots containing the USDA lines are a part of the variety and breeding work and field corn being conducted by Dr. V. E. Green, Jr. assistant agronomist.

For the past two years, a corn crop has been grown at the Experiment Station, beginning about Feb. 1 and late May and another is grown at the Plant Industry Station near Beltsville between late May and late September. The research program in the fight against the damaging diseases of field corn has been mainly speeded by this plan.

Miss Roberts is associate plant pathologist in corn investigations, field crops research branch, Agricultural Research Service, Beltsville, Md. She holds a B.S. and M.S. degrees from Louisiana State University where she was in the department of botany, bacteriology, and plant pathology.

Heavy Peach Crop

PAHOKEE — Mrs. A. B. Gray's three-year-old freestone peach tree is in such peak production this year it is breaking down the limbs. Another week will see the peaches fully ripe.

It is suspected that there may be some connection with this fire and the recent one at the Cleo Higginbotham home inasmuch as the evidences found in each case were similar.

5 Dogs Inoculated

SOUTH BAY — Inoculation of dogs for rabies last Saturday at City Hall brought five dogs between 10 and 11 a.m.

FPL Franchise Gets 41 OK; Ashley 'Nay'

BELLE GLADE — The new franchise agreement with Florida Power & Light Company which is to bring the City of Belle Glade more than \$14,000 annually, was passed on first reading by City Commission Wednesday night after a vote of four favoring and Mayor Walter Ashley opposed.

In a session which ran well after midnight, Commissioners

heard resolutions from the Planning Board, Lions Club, and Chamber of Commerce, and Negro Civic League and ten separate groups, favoring acceptance of the new 30-year franchise and opposing the city establishing its own power plant.

City Manager Clarence Robinson said that he had received only seven letters to cities having their own power plants. Ft. Pierce had replied with no concrete details about their own operation, but suggested that Belle Glade get a survey to check costs of setting up a plant now charged by FPL for service.

Commissioner Eugene Ellis presented reprints from the Ft. Pierce newspaper complaining of power breakdowns and interruptions, editorially, and reporting a city blackout due to power failure at the municipal plant.

Ashley Says Survey

Mayor Ashley, addressing the commission meeting, said that he felt the city here knew about the costs of operating a municipal power plant, and that the city manager's suggestion to have engineers come in and make a survey was feasible.

He want to do what's best for the people, Ashley said. He said he wanted to await the answers from the other six cities queried about their plants. Present estimates of the cost of putting a plant in Belle Glade are too high, Ashley said, and (Continued on Page 8)

MIGRANT BILL IS EXPLAINED

The migrant bill setting up regulations for management and utilization of migrant labor camps, now before the House Appropriations Committee of the legislature, "will in no way affect our labor camps now run by the Housing Authority," Rep. Everett S. Roberts, Gainesville legislator, reported this week.

Roberts, who won the fight in the Labor Committee to place the camp regulation under the agriculture department rather than the Public Welfare system, said "Primarily, the act was brought on by the situation created in Broward and Dade Counties by the Puerto Ricans."

The bill as now before the appropriations group carries \$100,000 for 15-member migrant labor board.

It will establish strong regulations which will affect private camps, Rep. Roberts said, and sets up a measure requiring that each seasonal agriculture worker have a health card which includes an X-ray, venereal disease, and rectal examination.

Among provisions under the bill are that every camp is to provide adequate sleeping shelter, screened kitchens, non-polluted wells, sanitary and convenient toilets and bathing facilities, and daily garbage disposal.

Under the act, any camp not conforming to the requirements will be adjudged as a public nuisance by agents of the commissioners of agriculture empowered to make arrests. A penalty of not more than \$200 or more than 60 days imprisonment can be levied on violators of the act.

BG ARMORY NOW SURE; BILL PASSES HOUSE

TALLAHASSEE — With the passage of the Belle Glade Armory appropriation in the Florida House of Representatives Wednesday, construction is assured because the Senate already has passed the armory as its first priority capital outlay. Rep. Everett Roberts of Belle Glade said yesterday.

He also noted passage of the home rule bill for municipalities, which will eliminate cities having to wait until the legislature meets for certain local action.

WASHINGTON NEWSLETTER

By Sen. George Smathers

WASHINGTON — Hearings were held a few days ago on the House side on the "Civil Functions" appropriations bill, one of the most important for Florida.

The "civil functions" program is that carried on by the Army Corps of Engineers to enhance our natural resources through improvements of rivers and harbors and development of flood control, reclamation, and water conservation projects.

Also, before other members of the Florida delegation, I appeared before the House Appropriations Committee and will soon appear before the Senate Appropriations Committee, singly urging the following amounts for Florida projects for fiscal 1956:

Increase to \$10 million for the giant Flood Control project in South and Central Florida of the Bureau of the Budget's recommended \$6,200,000.

Approval of \$997,000 recommended by the Bureau of the Budget to initiate a four-year program for Tampa Harbor.

Provision of funds to carry on reclamation for the Alafia, Hillsborough River and St. George Island Canal, and the Jim Woodruff Dam, both to cost \$1½ million.

Funds to maintain and extend the canal waterway from Jacksonville further southward: \$850,000; as well as funds for other projects important to every section of the state.

For the first time, member of the House, I introduced and saw to enactment legislation eliminating some of the restrictions on travel between the United States and Latin America.

Since last time, considerable progress has been made in encouraging visitors to Florida

from south of the border. Recently, for this purpose, we urged Immigration Commissioner J. M. Swig to establish pre-travel clearance procedures in Miami, Fort Lauderdale, and Tampa. The commissioner has now notified me that such inter-American travel easing is in effect at Windsor, Toronto, Montreal and Bermuda, and that pre-clearance of passengers is planned for Nassau and Havana.

TRIP-LEASE HEARINGS: As chairman of the subcommittee on surface transportation, I have tentatively scheduled hearings on "Trip-Lease" legislation during the weeks of June 20.

This is of particular interest to Florida, for it would allow truckers of vegetable and fruit crops to lease their trucks for short periods to distant markets, rather than return empty, as apparently envisioned by the ICC. I am hopeful that these hearings will result in a satisfactory solution to this highly complicated problem.

3 MILLION 4-YR. DROP IN CAMP RESIDENTS

Latest estimates show the number of people living on farms in the U. S. is less than 22 million today compared with 23.5 million in 1950, four years ago, according to the Florida Farm Bureau.

This drop represents a continuation of the long-time trend which has reduced the number of people on farms to 13.5 percent of the total population, Bureau says. All divisions of the country show decreases. Last year the South had about half the farm population of the nation; the West and the North-Central had about nine percent with North Central States claiming the remaining 32 percent.

FOUR GLADES MEN TO GET DEGREES

GAINESVILLE—Of the 941 candidates for degrees from the University of Florida at commencement exercises Sunday and Monday, April 1 and 2 are six men from the Glades.

James Daniel Latham, Canal Point, is a candidate for the degree of B. S. in Agriculture; Ross Wesley Winne, Chosen, for Bachelor of Science in Agriculture; Samuel J. Simmons, Belle Glade, Bachelor of Science, and Frederick D. Stevens, Belle Glade, Bachelor of Arts.

HOT FIGHT FOR ALUMINUM

UM: The Florida delegation found itself up to its neck in aluminum last week—or rather up to its neck without aluminum. Florida has more than 400 manufacturing plants who use aluminum. Venetian blinds, chairs, screens, and hundreds of other items are made by these firms. And now, in the name of science, some of these folks can't get enough aluminum. Because the government financed the expansion of the industry, they control the distribution of this much-needed metal. But what a shattering toll would effect so many firms in Florida, the delegation got together and demanded that the scarcity be looked into by the Office of Defense Mobilization.

It is called "contour pet," roughly, a contour pet nest. But it is also referred to as "doghouse" because you get past the name, the ad says. "Designed to complement today's modern decor, these beds are the smartest, most practical we've seen. Contoured sides come in various colors, non-slip position of your pet and protect him from drafts. Durable black moulded fiber rimmed with golden gnaw-proof plastic, foam rubber mattress with zippered sanforized sailcloth cover."

I can have a contoured pet nest to call my own for \$20, my size.

All it takes is cash. On the same page of the catalog is a "contour pet nest." For \$45 I could have a pet (who wants one) with aluminum mesh walls that have sliding wood panels in case of drafts.

The ad says this pet is "ideal for housekeeping since a puppy never willfully offends its own quarters." That ad-writer never met a pup-reporter Lisa, is all I can say.

Well, anyway, I pawed the catalog back in the wastebasket kind of thankfully.

Because only a couple of weeks ago the bosses were looking at a different catalogue and as a result I was almost regrettably.

That book advertised a "doggy feeder" which was a covered dish regulated by a time-clock. The idea was that my food would be put in the dish, the lid fastened, the time-clock set, and hours later at nighttime, the clock would whir, the lid would slide back, and I could eat in.

This kind of thing is ideal for dogs at houses where people hate to get up for a 9 o'clock Sunday morning.

I could just see myself with a dish like that, the lid open all ready to nose into my delicious boiled-horned-bean-added vita-vita. And I know what would happen next: the time-clock would friz up, the gears would grind, and the lid would snap shut on my nose.

I was in a cold sweat by the time the bosses finished reading the ad.

Then they looked at the price: \$15.

"To heck with these modern devices," chorused the bosses. And there the matter rests.

NEW MATERIALS
VARY FERTILIZER
PRACTICES

By Ag. News Service

GAINESVILLE—The age of change in fertilizer practices is just beginning," says Dr. Gaylord M. Volk, soil chemist with the Agricultural Experiment Station at the University of Florida.

"Research on crop production is far behind the industrial production of new materials now offered by the fertilizer industry," Dr. Volk continues. Three materials setting the pace to revolutionize the fertilizer industry are ammonium nitrate, urea, and ammonium nitrate and urea. Production of these is still increasing rapidly as new chemical plants are constructed. The process consists essentially of combining the nitrogen of the ammonia with hydrogen from natural gas. The ammonia may then be converted to ammonium nitrate or urea.

Ammonia

Anhydrous ammonia is ammonia gas kept under pressure in tanks. It is becoming popular for certain crops in Florida. However, it is not in general use. The gas must be kept in pressure equipment and injected into the soil behind special chisels or coulters. This is a little more difficult to use.

Ammonium nitrate is widely used for direct application. Crops. Normally, the dry material takes up water very rapidly and must be coated with a powder or wax to keep it in usable form. This has the convenience of handling and transfer and storage is simple. Dr. Volk says that attempts are underway to apply the liquid by airplane.

Non-Nitrogen

Many new non-nitrogenous materials are offered for use. An excellent advance in the field of boron sources is Gommanite, a mineral in which boron is more soluble than in borax. This reduces the hazard of boron toxicity in application and extends the period during which it is available.

Another new development is the use of pelleted fertilizers. A mixture is made with each pellet, carrying all the elements, rather than a mixture of pellets of different materials. Such pelleted materials have demonstrated advantages. The components do not separate out in handling. It is easier to obtain uniform distribution of elements, and the pellets simplify the legal fertilizer control analyses.

MIMS' WELD SHOP
PHONE 7102

Memo From The Editor:

A luxury model "Kokoon" costing \$3,000 is something which would have brought forth derisive snorts a few years ago.

The "Kokoon" is an 8 x 14-foot steel tank which, buried three feet deep, will shelter a family of five from A- and H-bomb blasts—provided they're far enough away.

Ever since seeing the movies of the A-bombing of "Doomtown" the disaster test city, I have wondered just what we'd do here in the Glades if one of the death-bombs hit Florida.

All I know is that the movies of "Doomtown" give a terrifying demonstration of what happens to frame, brick, stone, and concrete buildings when the bomb blast hits.

Our Florida-type one-story concrete block buildings which withstand the blast best—but the movies show the terrible cracks and shattered glass in that kind of house too.

Building a concrete house is advocated as the best above-ground measure for protection for families.

The "Kokoon," which becomes no laughing matter after sight of incinerated Doomtown, is the best solution for our peninsula.

The May 23 issue of "Life" shows the "Kokoon" in detail, and after seeing the Doomtown film, I think it would be a happy addition for the back yard.

The A-bomb demonstration movie should be forced viewing for every man, woman, and teenager.

It would quickly silence the

pacifiers and pacifists. Then maybe we could get on with aggressively and positively maintaining our uneasy peace.

Bathe Your Way to Health!

Health and happiness are always in season—and there's no better place to bathe than here, closer than Hot Springs. A staff of expert attendants is maintained in the Majestic Hotel Bath Department. Under their skilled treatment, you will find glowing health and contentment, replace aches, tension and worries... And remember, our Bath House is operated in accordance with regulations prescribed by the Nat'l Park Service of the U.S. Government's Dep't of the Interior.

In his speech at the ribbon-cutting ceremony in Central America, he said, "I like to think of this highway as more than just a good road. To me it is a means whereby the peoples of the Americas will surely get to know one another better. It is a carefully forged chain which binds together the destinies of all the Americas."

After he spoke, a man who had been standing in the front row rushed up, put his arms around him and began to shout, "Thank you, Senator!" It took the Senator some time to calm the fellow down, and a little more time to understand what it was all about. It seems that the man was saying, "I'm a good man, and here he is, a recent graduate from the University of Florida engineering school—and that he was one of the local engineers who had helped to build this new link in the Pan-American highway.

He was in a cold sweat by the time the bosses finished reading the ad.

Then they looked at the price: \$15.

"To heck with these modern devices," chorused the bosses. And there the matter rests.

The home of Mrs. William Gruber was the scene Friday evening of a bridal shower complementing Miss Jane Womack whose marriage to John O. Johnson of Clewiston will take place Sunday. Hostesses were Mrs. Don Aspey, Mrs. Marian Chapman, Mrs. Mrs. Eddie Dugdale, Miss Jane Weckesser, and Mrs. Miss Battle in addition to Mrs. Gruber. The home was decorated with arrangements of gardenias. The serving table, also decorated with gardenias, held a large cake in the form of a bride, and decorated in pink, white and green. The gift table was trimmed with pink crepe paper and arrangements of pink hibiscus. Miss Womack placed musical selections on the program.

The Recreation Hall of Belle Glade First Baptist Church was the scene Tuesday evening of a bridal shower, when Mrs. Mills Bryon entertained complimenting Miss Eleanor Walker, who married Mr. John E. Walker, Saturday. The wedding will take place June 6. Recreating with Mrs. Bryon were Mrs. Robert Walker, mother of the bride-to-be, Mrs. W. S. Schleicher, mother of the groom, and Miss Mary T. The gift table was decorated with roses, and the refreshment table was decorated with gardenias and fern. Mrs. W. T. Forsee presided at the punch bowl. Before the honored guests arrived, the hymns for the occasion were played.

Miss Sue Geer, daughter of Dr. and Mrs. N. Q. Geer of 548 SE Fourth St., Belle Glade, has been selected as one of the typists on the staff of the Blue Mountain Daily student newspaper of Blue Mountain College in Mississippi.

James E. Waddell, son of Mr. and Mrs. B. Q. Waddell, 120 NW Ave. C, was honored by the University of Miami, who presented him on Sunday, May 14 for outstanding achievement during the past year.

Bert Michaels, 18, son of S. Michaels of Belle Glade, has been selected as featured dancer at the Clover Club in Miami. Michaels, who attended Belle Glade schools, is in the "Accent on Youth" revue.

PAHOKEE - CANAL POINT

By MRS. JOHN DULANY
Phone 3761

Mr. and Mrs. Albert Fremd, Canal Point, visited in St. Petersburg recently.

Mr. and Mrs. Jimmy Tompkins of Sumpterville have been the guests of their brother-in-law and sister, Mr. and Mrs. Bob Duncanson.

Hugh Watson, student at University of Florida, Gainesville spent a couple of days here with his parents, Mr. and Mrs. Ronald Watson.

Mr. and Mrs. J. S. Barwick and family had as their recent

guests, his parents, Mr. and Mrs. E. W. Barwick of Pompano Beach.

Mrs. C. G. Payne left Monday for a visit with friends in her former home of Seaville, Ga. She accompanied her son-in-law, Elsworth Keen to Georgia where he is employed this week.

Mr. and Mrs. J. W. Durance and their son and daughter-in-law, Mr. and Mrs. Bob Durance were as their recent guests, Mr. and Mrs. R. Woods of Tallahassee.

Mrs. Duncan Padgett, spiritual life secretary of the WSCS of Pahokee Methodist Church, Elliott district secretary of children's training school for WSCS at Belle Glade Community Methodist Church, Tuesday.

Mrs. T. L. Sellers is a patient at St. Mary's Hospital in West Palm Beach this week, undergoing major surgery.

Mrs. J. E. Graham underwent surgery at St. Mary's Hospital in West Palm Beach this week. John Rogers, son of Mr. and Mrs. J. D. Rogers, will be an organist at the Gainesville First Methodist Church Sunday at 4 p.m. He is the student of Mrs. E. Ruffin Jones.

Mr. and Mrs. W. H. Freeman, Jr., (Carol Phillips), Clewiston, are the parents of a son, Keith Philip at Henry Mayo Hospital in Clewiston on May 19. Mr. and Mrs. A. C. Phillips are the maternal grandparents of the new arrival. They visited their daughter and family on Sunday.

Mr. and Mrs. Joe Thompson and family had as their guests Saturday, her brother-in-law and sister, Mr. and Mrs. Robert Zachrich, their children, Robbie, Mark and Chris and husband also Mr. Zachrich's uncle Casper Christopher of St. Louis, Mo.

Miss Lois Brockett and her mother Mrs. Betty Bush were weekend visitors with relatives in Okeechobee. Mrs. Bush's son is leaving the Belle Glade Western Union office this week and going to Fort Myers where she will do relief duty in the WU office there. She will continue her vacation work through the summer months.

Mrs. M. C. Carter, Port Mayaca, has returned from a month's visit to California and also visited her daughter, Mrs. Barbara L. McCullum, Cal. and spent some time with her three grandchildren including Patrick Alan McCullum, born April 16, five days before his father left for duty in Japan.

Mrs. Charles L. McCallum, Cal. and their 14-month-old daughter Nancy.

Mr. and Mrs. G. F. Teel are remodeling and redecorating their recently purchased home at 116 Anna Avene.

Miss Thelma Louise Vann, of Sarasota, daughter of Mr. and Mrs. L. P. Vann, Pahokee, whose marriage to Leroy Putner, son of Mr. and Mrs. J. L.

Putner Sarasota, will take place June 19, at Sarasota. Baptist Church at 4 p.m. will be honored with a party and shower tomorrow night. Mrs. Lloyd Hunter, Mrs. Billie Hunter, at home and co-hostesses will be Miss Worth Keen, Mrs. Robert Appling and Mrs. Robert Simonson.

Mr. and Mrs. Leonard Maxson and family of Canal Point visited in Princeton last weekend with relatives and attending the annual homecoming of the Church of the Nazarene.

Mrs. J. E. Hawking had as her recent guest her son Lorron Lee of Miami of Miami.

Sales get BIGGER!
and BIGGER!
and BIGGER!

This '55 Buick
must have something that
folks just won't do without!

Two months ago, in the public print, we said that this looks like Buick's biggest year—and we weren't fooling.

But what has happened—and continues to happen—is almost beyond belief.

People buy up these stunning new Buicks practically as fast as we get them from the factory. Buick production—already revised upward several times—keeps forging ahead to new highs every month to meet the mounting demand.

And Buick sales keep soaring higher and higher—outstripping by far the phenomenal success of last year—the success that moved Buick into "Big Three" of America's best sellers.

What is it about the '55 Buicks that folks by the

hundreds of thousands just won't do without? It's many things.

It's styling that's boldly distinctive and fresh as tomorrow. It's beauty of line and beauty of interior décor. It's a ride that's level, firm and steady. It's a real sweetness of handling. It's great power—walloping new V8 power of record might.

But above all, it's a new kind of performance, from a new kind of automatic transmission that was born of flight thinking.

It's Variable Pitch Dynaflow®—engineered from the principle of the modern plane's switch-pitch propeller—and what it brings you in the way of pure thrill, mere words can't describe.

Just drop in on us this very week and try it. That way you can see what a terrific automobile—and a terrific buy—the hottest-selling Buick of all time really is.

*Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.

GLADES CLUB EVENTS

PAHOKEE - CANAL POINT GARDEN CLUB INSTALLS

Mrs. L. F. Sherwood of West Palm Beach, treasurer of the Glades Club, installed Mrs. Lloyd Hundley, new president of the Pahokee - Canal Point Garden Club, and her staff of officers at a luncheon meeting Tuesday at a Canal Point Community Building.

Mrs. L. W. Armstrong was seated as vice president; Mrs. O. R. Chastain, recording secretary; Mrs. A. R. Chastain, corresponding secretary; Mrs. C. L. Shirley, treasurer; and Mrs. C. L. Toldt, chairman of Hibiscus circle and Mrs. F. W. Branderas, chairman of Gardenia circle. All were presented orchid corsages.

During the program a trio composed of Mrs. C. Coburn, Glenda Fay Russom, and Variarie Geiger sang, accompanied by Rose Marie Henderson, pianist. Linda Sellers sang two solo numbers accompanied by Miss Margaret Powell. The meeting opened with the singing of the national anthem and the other by Hugh Ridenour.

Mrs. Hundley named the new committees: Mrs. R. W. Sanders, awards; Mrs. Edgar Wilder, birds and conservation; Mrs. M. C. Carter, books, library, and short story; Mrs. M. F. St. John, news; civic; Mrs. J. M. Elliott, finance; Mrs. C. G. Coburn, flower arrangements; Mrs. John T. Pickett, sr., garden center; Mrs. S. C. Chastain, hospital; Mrs. E. M. Merrithew, horticulture; Mrs. Albert Fremd, historian and scrap book; Mrs. L. W. Armstrong, program and lectures; Mrs. Frank Friend, road side division; Mrs. George Jensen, visiting parliamentarian; Mrs. Dan Carpenter, public relations and rules; Mrs. O. R. Bleech, publicity.

Mrs. Hundley presented Mrs. Sherwood with a gift in behalf of the club and Mrs. A. R. Chastain with a gift. Distinguished outgoing president, a club gift. Mrs. Coburn was in charge of the floral decorations which consisted of day lilies and royal poincianas. Mrs. Sanders, Mrs. J. S. Chastain were in charge of luncheon arrangements.

BELLE GLADE OES CELEBRATES 11th YEAR

Belle Glade Chapter No. 197, OES, held a birthday celebration at the Edelweiss Inn Saturday at the regular meeting May 19, at Benevolent Hall. During the program, which was in charge of Mrs. Agnes Baker, Mrs. Pauline Boydston, the first president of the chapter, gave a brief history of the early days of the chapter. She noted that the chapter was granted on April 15, 1944.

A birthday cake with 11 candles was served with punch by Mrs. Agnes Baker and Mrs. Simonds and Mrs. Martha Freez, refreshment committee for the evening, and "Happy Birthday" was sung by those present before the cake was cut.

The following charter members, all whose names are past presidents or past matrons of the chapter were present: Mrs. Boydston, Mrs. Margaret Royals, Mr. and Mrs. Wendell Lyons, Walter Schlecht, and Joe Cherry. At the meeting, the degrees of the order were conferred upon Mrs. Doris Binkley.

HD CLUB PLANS FOR LUNCHEON JUNE 16

The Home Demonstration Club met at the Woman's Club House last Thursday at 2:30 p.m. with Mrs. G. Murray, president, presiding. Guests included to help prepare dish luncheon at the Municipal Park at 1 p.m. on Thursday, June 16 at the last meeting of the club until fall.

Mrs. Sara Horton, home demonstration agent for Palm Beach County gave the program an excellent and informative talk on "Know Your Business" — the fundamentals of being a good business woman.

Hostesses were Mrs. E. W. Scheffler and Mrs. Urban Feising.

BG GARDEN STUDY GROUP INSTALLS AT BREAKFAST

At an installation breakfast held at the Edelweiss, Mrs. A. F. Hopson was installed as president of the Garden Study Club. Mrs. Roy A. Bair, outgoing director, was the installing official. Fred Fahey, retiring president, was presented with a president's pin by the membership.

Other officers installed were: Mrs. Barnes Smith, vice president; Mrs. Robert Abbott, recording secretary; Mrs. Barbara Green, directors at large, Mrs. Luther Jones, and Mrs. Elmer King.

The following committee appointments were made: Mrs. John H. Johnson, president of the club; Mrs. A. C. Stone; wavy and means, Mrs. George Wedgworth; flower show school, Mrs. Roy A. Bair; conservation, Mrs. Jimmie Williams; parliamentary, Mrs. Eddie Jones.

Annual reports were given and it was announced that there will be a flower show school concert held here in November. Mrs. V. Creasy sang and corsages which were given to each incoming officer. For the installation, the tables were decorated with salmon color snapdragons, and zinnias. Yellow carnations and roses trailed from the birthday cake of the first anniversary of the club's existence. The cake itself was decorated with yellow and white roses, and a white candied swan.

PAHOKEE WOMAN'S CLUB INSTALLS; HONORS 9

Nine charter, and honorary members of Pahokee Woman's Club were honored following installation of new officers at their luncheon meeting of the club Wednesday at the clubhouse.

Only new Chevrolet Task-Force trucks bring you all these new modern features! If you don't get these up-to-the-minute advantages, you're getting an old-fashioned truck—and stand to take a licking at trade-in time!

Fresher air in all kinds of weather. New High-Level ventilation takes air through louvers at cowl level.

New Overdrive. Optimal extra cost on 1/2-ton models; Hydraulic optional on 1/2-, 3/4- and 1-ton models.

New concealed safety step. A safety feature—steps stay clear of ice and mud. Out of sight with doors closed.

Tubeless tires standard on 1/2-ton models. Greater blowout protection—they deflate more slowly if punctured.

Power Brakes standard on 2-ton models. An extra-cost option on all others. Reduce driver effort; add to safety.

Power Steering. Driving's so much easier with turning effort reduced as much as 80%. Available as an extra-cost option.

Year after year,
America's
best selling truck!

GS AWARDS SET FOR TONIGHT

BELLE GLADE—The Girl Scouts annual awards of the year will be held in front of the Girl Scout Hut at the Municipal Park tonight at 7:30.

Brownies and intermediate Girl Scouts will receive awards earned during the year. This program will be the highlight of the Scouting year for most of the girls. The program will open with the presentation of the colors, the salute to the flag, and the Brownie and Girl Scout Pledge.

Each of the troops taking part will present a short entertainment, after which awards will be made. The court of awards will be in charge of Mrs. Fred White, Mrs. Lee, Mrs. D. R. J. Allen, Jr., will speak briefly about the proposed area council which will include all of Palm Beach County and Clewiston.

Troop leaders this year have been: Mrs. Victor Mulberg, Mrs. Richard Hodges, Mrs. Larry Royal, Mrs. Peter LaChance, Mrs. John Shultz, Mrs. Fred White, Mrs. Lee, Mrs. Sallie C. R. Lee, Mrs. Robert Riley, and Mrs. Malcolm Bedsole.

CARLOADING GOES EVEN BETTER

Carloadings this week stood at 450 ahead of the all-time high of 12,316, for a total of 12,765 for the season to date, FEC Agent R. E. Hotard reported.

The report for the week ending May 25 shows that this season is ahead of last year by 2,483 cars.

Summary is as follows:

Tallahassee to get approval of new breakwater plans, and the Corps of Engineers will act on the application of a construction permit Tuesday, Council was informed.

Cooperation on Vehicles

Councilman Blanche Armstrong said his cooperation was forthcoming on her efforts to get abandoned vehicles removed from rights-of-way within the city. Owners contacted had promised action, she said, and many of the old vehicles are being cleared up already.

City Attorney Ralph Johnson reported that the word from the county on Pahokee's long-awaited public health center was that bids on construction will be called for in the near future.

The city will advertise for a dusting machine for control of mosquitoes.

Wilkinson said that residents of Vettville were "raising Cain" about the holes in their streets, and that he was hoping that the street department could go in and put an eye to future repairing, rather than simply patch the streets.

Council President Loren Mereith pointed out that it seemed to him that the city was trying to do just that, namely, that "the cost of maintenance is eating us up." It was agreed to start some repair work on the Vettville streets.

Other Actions

In other actions, Council AUTHORIZED a contribution of \$25 to the local Boy Scout fund drive;

RETAINED all city employees at regular pay;

ASSIGNED to the Parks Department the task of equipping the Okeelanta property on E. Main St. as a park, on the report of Wilkinson that the property is available;

AGREED to enlarge the drain on Second St. toward Barfield Hwy. for faster runoff of water in the residential area;

AUTHORIZED purchase of a new City Hall for \$100,000; INSTRUCTED the Street Department to put in a sidewalk from Lake Avenue and Second St. to the Stanley Chevrolet property.

County Commis. Night For Lions

CANAL POINT — It was county commission night at the Canal Point Lions Club dinner meeting Monday, with four of the five members of the commission, the county engineer, and the county attorney in attendance.

Outgoing President Oscar Upthegrove introduced Commissioner Kenneth Paul Raardin, who acted as master of ceremonies and introduced Commissioner Chairman Bert Sandy, Commissioners Kenneth Upthegrove and Lytle Taylor, County Engineer Steve Middleton, and County Attorney Harry A. Johnston.

Sandy extended greetings from the commission, Lytle Taylor a county welfare worker, and A. Foster, a committee zoning plans, while Johnston reviewed the bills passed during the 1951 legislature that will affect Palm Beach county. Middleton explained how bids for county equipment are let and the process and read in a public meeting.

In order to give the guests a view of how the county commission operates, they reenacted a regular meeting.

Each of the troopers taking part will present a short entertainment, after which awards will be made. The court of awards will be in charge of Mrs. Fred White, Mrs. Lee, Mrs. Sallie C. R. Lee, Mrs. Robert Riley, and Mrs. Malcolm Bedsole.

Carloadings this week stood at 450 ahead of the all-time high of 12,316, for a total of 12,765 for the season to date, FEC Agent R. E. Hotard reported.
